

President Federico Villegas

Office of the United Nations High Commissioner for Human Rights (OHCHR)  
Palais des Nations  
CH-1211 Geneva 10, Switzerland

Dear Mr. President,

21.12.22

*Ref: Human Rights Council's fact-finding mission in Iran.*

All Human Rights activists as well as an entire nation are grateful that the Human Rights Council has established an independent fact-finding mission to investigate the Human Rights violations of the Islamic Republic.

The Islamic Republic has failed to implement basic Human Rights in Iran and the breaches of Human Rights over the last four decades have been fully documented.

The world and international communities have witnessed an appalling, inhumane, unlawful, and deadly crackdown by the Islamic Republic against unarmed protestors and minors since 16<sup>th</sup> September 2022.

Estimated figures place the dead at over 500, which include over 60 minors aged 16 years and below. Many have been shot by live ammunition, and snipers. Some have been beaten to death in the streets of Iran.

Many thousands are in custody and there is evidence of systematic torture and rape. The Human Rights Council is fully aware that in an unprecedented move, the Islamic Republic parliament voted unanimously for the execution of over 18,000 protestors at the earliest possibility. Many have been charged with enmity toward God, corruption on earth, and espionage.

The protestors in custody have no legal representatives and we fear that they will all face unfair summary trials in revolutionary courts and many may simply disappear. It has been reported that some accused of espionage and of taking up arms against the regime have had machine guns 'photoshopped' on their pictures.

Two protestors, Mohsen Shekari and Majid Reza Rahnavard, both 23, were executed in December 2022 after attending a summary revolutionary court with no

legal representatives and no due process. Both protestors had been tortured and beaten. Mr. Majid Reza Rahnavard also had a fractured left arm.

The crackdown has also involved the kidnappings of many hundreds of young girls from the streets of Iran. Many injured protestors in hospital have been taken away to unknown locations and their fate remains unknown. There are reports that a few corpses have now been discovered in rivers and mountains

The Islamic Republic's representative at the Human Rights Council shamefully attempted to divert attention away from Iran and accused the European democracies of using Human Rights to target Iran. The propaganda machine of the Islamic Republic will attempt to dilute the gravity of the situation and hide the atrocities committed against humanity.

It has been reported on many social media sites that regime military and para-military forces have started to hand out flowers and roses to pedestrians whilst camera crews filmed the event, apparently in a desperate attempt to document their kindness to the civilians.

In another attempt to divert blame for the unlawful murder of unarmed civilians, there are reports and unconfirmed video images clearly showing the security forces of the Islamic Republic dressed up as Kurdish '*Peshmerga*' fighters.

We are confident that the experienced members of the fact-finding mission will not be deceived by such deplorable and underhand tactics.

The association of Iranian Human Rights and Allies draws the council's attention to Appendix A, which documents the deaths of unarmed civilians by the Islamic Republic security forces only up to the 14<sup>th</sup> of October 2022. Their deaths were all preventable if unreasonable and deadly force had not been deployed by the regime forces.

This list should be used as evidence to hold the regime in Tehran accountable for the breach of Human Rights and crimes against humanity.

Yours Sincerely,

Association of Iranian Human Rights and Allies

## **Appendix A.**

Name of unarmed civilians killed by the Islamic Republic Security forces  
(16 September – 14 October 2022)
